

Part-time Employees

Part-time employees receive holiday credit based on their schedule. If the holiday falls on a scheduled work day and the employee is in pay status the day before and after, the holiday will be granted based on the scheduled number of hours for that day.

If the employee is not scheduled to work on the holiday, no credit will be granted.

Hourly Employees

Hourly employees will not automatically receive Holiday credit. The timecard will have a placeholder displaying the Holiday, but no credit will actually be given to the employee. Therefore, the holiday will need to be manually added to the timecard for the eligible hourly employee.
